From The Christmas Ticket

Bobby's Growing Paper Chain

Every time a letter came from his big sister Dot, Bobby made a new link for his paper chain. Red. Green. Red. Green. Make your own chain and watch it grow!

You will need

- Red and green paper, or the printable strips on the next page
- Safety scissors, and tape or a glue stick
- A pencil or crayons

How to make it

1. Cut strips about 1 inch wide and 8 inches long, or cut out the printable strips along the dashed lines.
2. Before you add a link, write a wish, a prayer or something you're thankful for on it.
3. Loop the first strip into a ring and tape or paste the ends together.
4. Thread the next strip through the ring, then close it into a ring too.
5. Add one link for every day of December, or one for every day you wait for someone special.
6. Hang your chain where everyone can see it grow!

Print on white paper and color, or print on red and green paper

Paper Chain Strips

Cut along the dashed lines. Write on each strip, then loop it so the words show on the outside.
